Employee Shareholding & Management Package

Employee shareholding is one way for a company to offer its employees the opportunity to **invest in its capital**, and thus become shareholders. Through the implementation of a share scheme, **companies provide their employees with a direct interest in the business performance.**

This type of scheme can be set up in all **joint stock companies**, whether listed or not, and can be for the benefit of all employees or only some employees.

While employee share ownership is not a new concept in France, it is being increasingly used. It aligns the interest of the employees with those of its shareholders. From a company perspective, it is a contributing factor to **cohesion, attractiveness and employee loyalty**. For employees, a share scheme plan is an advantageous way of redistributing the company's created wealth and enables employees to be more engaged in the business.

Implementing such schemes is becoming an increasingly important pillar in a company's quest for **corporate social responsibility**, and current legislation opens many opportunities for companies to adopt such initiatives.

Faced with such a general and developing trend, we have pooled our experts together to create **a dedicated and unique team** who can provide our clients with **innovative solutions** tailored to their corporate objectives, deal with the **most complex issues** (governance, corporate development, liquidity and valuation, human resources management) as well as providing them with legal, social and tax security.

We work with **unlisted companies - SMEs, mid-tier companies and asset**

managers - in France and internationally, helping them to draw up and implement their **employee shareholding schemes**, as well as **preparing their remuneration and employee savings plans**.

As such schemes are by nature cross-functional, it is essential that experts have a **global approach to the issues at stake** and that an **international network** is in place and able to deploy **employee shareholding schemes in other countries if necessary**.

Supporting our team of expert lawyers, is our **extensive and specialized network**:

- Grant Thornton's **Valuation Services** experts
- Our **24 offices in all regions of France: North, East and West, offering local coverage and knowledge**.
- Our **global organization, Grant Thornton International, present in 140 countries**.
